Precision Auto is truly your one stop shop, specializing in: collision repair, frame work, paint work, small and large service repairs, 24hr towing, and professional detailing. The shop techs are ASE and I-CAR certified in their fields of expertise. We use the industry's leading products including DuPont's Cromax Pro waterborne paint line. Best of all we have rental vehicles available for our customers on site.

Our detail shop specializes in everything from partial to complete in and out cleaning. Complete makeovers starting with interior shampooing, leather care, exterior buffing, and waxing all at affordable prices.

The body shop can take care of all your auto body needs from light hits to totals with our DuPont refinishing products, Kansas Jack drive on frame rack, Blackhawk downdraft spray booth, and computerized estimating systems. We also specialize in vehicle accessories including: bug shields, nerf bars, tonneau covers, upholstery decals, pin stripping, vinyl decals and much more.

The service department is a bumper to bumper service center. The service center specializes in: 25 years of driving diagnostics, a/c services, charging system services, computer diagnostics, wheel alignments, engine tune-ups, tire sales, tire rotations, tire balancing, brake jobs, coolant flushes, transmission work, power steering repairs, and much more.

We also have 24 hour towing for break downs of all kinds, winch-outs, accidents, roll-overs, lock-outs, tire problems and motorcycle towing. Our drivers are on call around the clock all year around.
